What is the Problem Most Students Have?

"I don't know what to write or to say in the exam."

"I don't know how to generate ideas."

"I don't know what vocabulary to use."

"I can't complete my tasks in the amount of time I have."

BUT WHY DOES IT HAPPEN?

Students usually don't know how to

- build their vocabulary
- structure their ideas
- use the kind of grammar that examiners are looking for

The core problem is that **many students have no idea what they are doing wrong or why.**

The cost of not improving these weaknesses, means that you are unlikely going to be able to achieve your dreams.

The Cambridge exam is what is standing in your way and you need to know what to do to get the result you want, need and deserve.

In our courses you learn how to easily structure your writing, use complex grammar structures as well as academic and topical vocabulary in the tasks
